5) Fit_curve.m

The image shows a MATLAB Editor window with the title bar "Editor - C:\Users\ho9306\OneDrive - Wayne State University\BE1500_EXTRACREDIT\fit_curve1.m". The window contains several tabs: "descriptive.m", "fit_curve1.m", "MAINFILE.m", "predict.m", and "visualize.m". The "fit_curve1.m" tab is active, displaying the following MATLAB code:

```
1 function fit_curve1(data)
2 cases=data.new_cases (1:2500);
3 days=1:2500;
4 p=polyfit(days, cases,1);
5 yfit=polyval(p,days);
6 figure;
7 plot(days,cases,'b-','LineWidth',1.5);
8 hold on
9 plot(days,yfit,'r--','LineWidth',2);
10 title('COVID-19 Cases with Linear Fit');
11 xlabel('Days')
12 ylabel('New Cases');
13 legend('Actual Data', 'Linear Fit')
14 grid on
15 axis tight
16 ylim([min(cases)-10, max(cases)]);
17 end
18
```
